## Cranab Static Mounted Cranes

Cranab offer an extensive range of cranes for static mount materials handling with reaches from 4.75 to 10 metres and lifting capacities of up to 1250kg at 8.5 metres reach. Cranab cranes are designed to 85 cycle standard, the highest for forest cranes and can be used for 100% duty cycle. A wide range of log and materials handling grabs and attachments can be used with Cranab cranes for all types of handling operations. Cranab cranes are today in worldwide use in sawmills and recycling stations.
