

DATA SHEET

Brushwood Grapple

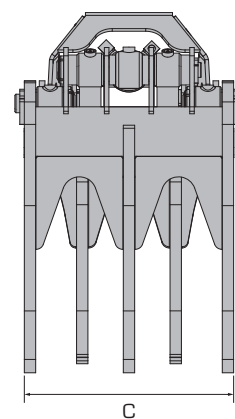

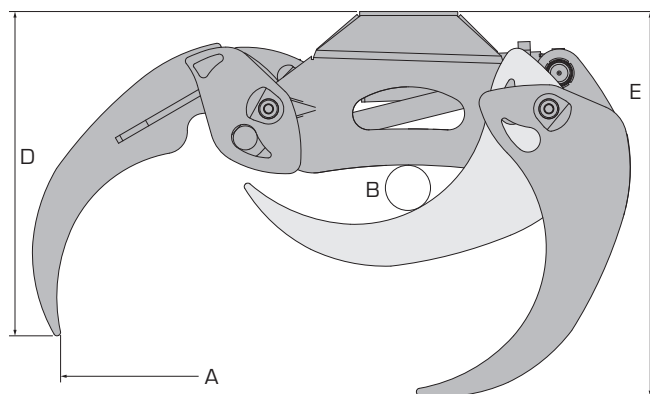

The Powerhand GB Series biomass grapple is available for both rigid excavator mount on excavators from 6 tonnes up to 14 tonnes and swing link mounted for use on excavators and timber cranes.

Combining high strength with light weight, the GB biomass grapples are ideal for the handling of all types of biomass including, timber, branches, scrap wood and materials for recycling.

Available in 0.26m² and 0.35m² capacities with five Hardox tines, these grapples offer the ultimate solution to biomass handling.

Dimensions		GB26	GB35
Capacity (m ²)		0.26	0.35
Weight (kg)		250	315
Opening (mm)	A	1524	1836
Min. Gripping Diameter (mm)	B	98	121
Width (mm)	C	476	523
Height Open (mm)	D	759	758
Height Tip to Tip (mm)	E	882	957
Excavator Size (kg)		6000 - 12000	10000 - 14000
