Log Handling and Loading Grapple

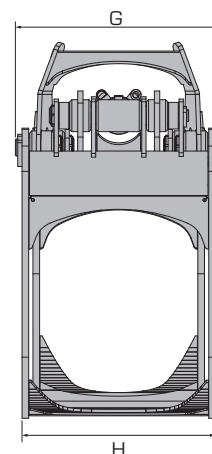

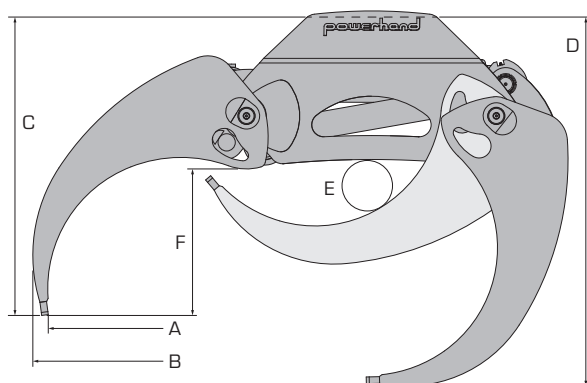

Trusted and used by many of the largest sawmills in Europe, the GH grapple is the ideal log handling and loading grapple for excavators, materials handlers, and loader cranes in sawmills and loading yards.

Built tough for long life and minimal downtime. Greater stability and reach of your machine is achieved through the compact height. Designed for ease of maintenance, with hardened chrome plated pivot pins, easy access grease points, and well guarded hydraulic cylinders.

Capacity ranges from 0.6m² to 1.0m².
