Log Sorting Grapple

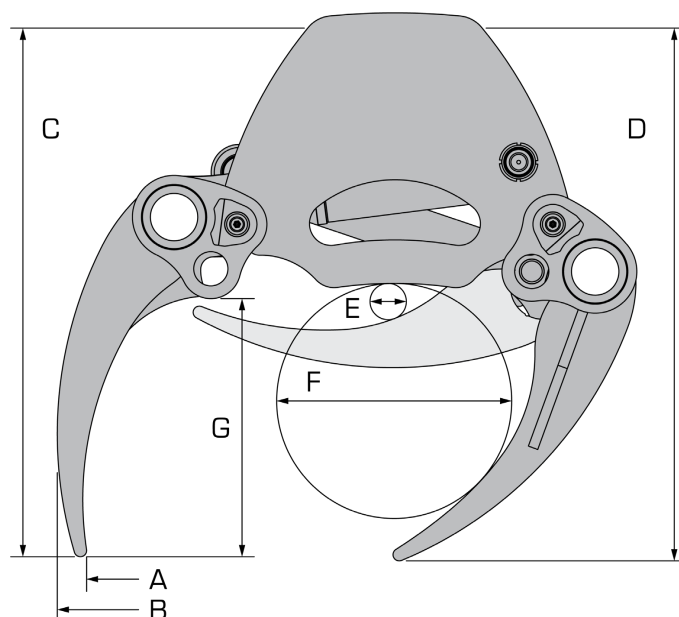

Trusted by many of the largest sawmills in Europe, the GT series log sorting grapple is the smallest grapple in the Powerhand sawmill range.

Whether sorting logs on a line or handling single poles, the GT log grapple is the perfect grapple for this task. Penetrate piles of stacked material like never before with the GT's narrow finger-like tine design and keep your log line moving at unprecedented speed with the fast action of the legs.

Ideal for sorting misaligned logs.
